It with great sadness that we report that **Bill Neale, MMR** passed away on Thursday, Dec 28th during surgery. Bill went into the hospital about a week before with several concerns that progressed faster than the doctors could handle. Bill modeled the PRR and his layout was an amazing example of operations, scenery and mechanics. Bill was always willing to help others with problems and advice to solve problems. Always a happy model railroader, Bill also served on the NMRA National Board as Central Director for 6 years. He was an NMRA member for over 50 years and was MMR #480. Prayers to his wife and family. He will be missed by everyone! There will be a Celebration of Life this spring.

DIV 6 IMPORTANT INFO

There was a few important decisions and discussions held at the last Division 6 meeting. Here is a report on those....

ZOOM The issue is if we should continue to use Zoom during the Div 6 meetings. During a Board meeting, it was voted to stop using Zoom, but then it was decided to bring this up for discussion with the membership. Zoom costs about \$190/year. We usually get 2-3 members on Zoom per meeting. Reasons for dropping Zoom were because of costs, low demand and problems in getting it running in a timely manner every meeting. Reasons cited for keeping Zoom were that it allows members and anyone to participate if they are away or in case of bad weather. It is inviting people to attend and participate in our meetings, even if limited a bit.

AFTER A MOTION AND VOTE, IT WAS DECIDED BY THE MEMBERSHIP TO KEEP ZOOM FOR AT LEAST ONE MORE YEAR.

Another evaluation will take place after that time.

MEMBER IN-ACTIVE POLICY In the one page newsletter passed out during the annual Fall Show, it was stated that if a member does not attend 3 consecutive meetings, they would be made in-active and not receive the newsletter. This was our policy for most of

Division 6's history, mainly because we were mailing via US mail, the newsletter to all members. It was felt that if a member was no longer interested that we should not spend the money to keep them informed. There was two ways around this policy - to simply inform the Board that an extended absence would happen, or to provide Div 6 the required postage to continue receiving the newsletter. With the newsletter now being emailed to most everyone, this policy was really out-of-date and should have been reviewed a few years ago. Some comments for keeping the policy was that even with email, if a NMRA member is not interested in us, why should we keep the effort of trying to keep them informed. It was noted that since May 2023, over 80 extra NMRA members have been receiving the newsletter and have not contacted us in any way or attended a meeting. Reasons for removal of the policy was that we should be inviting to all NMRA members that are in our Division 6 boundaries, whether they attend meetings or not. Emails cost nothing to send, so we should send them to all. **AFTER A MOTION AND VOTE, THIS POLICY HAS BEEN ELIMINATED.**

CLINIC

WE ALWAYS NEED CLINICS for our meetings! Bill McMillan is our Clinic Chairman! To all Div 6 members, PLEASE share your talents and knowledge!

The clinic this past month was from Mark Ellis on flat car loads! Mark had a great PPT presentation showing many aspects of RR loads and history. It appears that the flat car was the first freight car to be invented! Mark showed the many loads he has made for flat cars for his railroad. He told us of some of the tips/hints of how to do the loads and secure them to the cars. Mark also showed many prototype cars and loads. Great information! Thanks Mark!!

NEXT MEETING- TBD.....

Norm Logan - Event Chairman

SUPERINDEPENDENT CORNER

As I looked at the first draft of this issue of "OTR," I noticed that Barry chose a snowplow locomotive graphic. (Barry chooses a different railroad graphic for each issue!) That means it must be Winter in Michigan and with it a New Year.

Do you make New Year Resolutions? Do you keep them? Over my many years I have made many resolutions. Early on, the resolutions were too big to realistically keep and usually I failed. Then I started making small resolutions and I found that I could keep them (at least longer.)

I would like to see each of our members (over 120 of you) resolve to do at least one thing for Division 6 that you haven't done recently. Here are some possibilities:

** Attend a few Div 6 meetings - either in person or via ZOOM.

- ** Help at a Div 6 event (they are listed in this newsletter)
- ** Recruit a new member
- ** Offer to drive a current member, that can't drive, to a meeting
- ** Host a Layout Tour
- ** Present a clinic (just 10-15 minutes) at a meeting, on any railroad topic
- ** Help set up or tear down at a meeting

What will you do to be more involved with your Division 6?

The Executive Board has decided to move our website to a new host - with the North Central Region. Control of the site will be with a couple of people in Division 6, and they will be responsible for keeping the site current with our publications and activities. This change will not take place until mid - late February and we will let everyone know when it is active and how to log on.

All members and friends of Division 6 were saddened by the news that William (Bill) Neale, MMR, passed away recently during surgery. Bill was a friend of all model railroaders and was a loyal member of the NMRA. I have had many responses to my earlier posting. They expressed how much Bill meant to them and that he will greatly missed by all. Our thoughts and prayers go out to Bill's family.

You can also email me at Plichau@yahoo.com with any thoughts. Paul

BILL'S TOOL TIME

Terry Kosmas will coordinate tips from the membership. If you have a tool tip to give, please contact Terry and he'll get you scheduled. We're looking forward to more tips soon.

RAILROAD HISTORY

John Bopp was at the December meeting, but we did not have time for a lesson. We're looking forward to another lesson soon!

THE OBSERVATION CAR

When someone asks you what your hobby is, do you have your "elevator pitch" ready?

For those of you not familiar with the term "elevator pitch", it's a famous business term that says, if you were to step onto an elevator at work with a company top executive, could you give him or her a 30 second description of what you are working on, just why it's so important to so many people, and what it's in it for the person listening.

Someone asked me the other day what was keeping me busy and happy in retirement, and I only had a minute to give him a worthy answer. It got me thinking about how most of us would have a ready and very concise pitch that might quickly get someone new to our hobby interested in checking what it was all about. Could most of us get someone both aware and then interested in or curious about what we spend so much time on, and why do we get so much out of it, in less than 30 seconds?

So, while you are in the middle of something on your layout, or when you go to an operating session, think about what you might be ready to say to someone, to get the message across in 30 seconds or less.

My pitch now is "I keep myself really enjoying creating or operating scale model railroad layouts that let me create detailed versions of the real thing and replicate their operations. Not only am I enjoying creating these model versions, but I get to learn all sorts of new and challenging skills I never thought I could master, like building and weathering structures, learning woodworking skills for all the benchwork, electronics for all the operations, creating realistic scenery and backdrops, and lots of problem solving. This thing REALLY gives my brain and my body a workout every day. You should look at visiting a layout or an operating session, if you would

like to try it out a bit, not to mention making lots of new friends. It's a VERY, VERY social hobby."

If you can get your pitch down to 30 seconds, you stand a good chance of creating new members for the hobby and the division, when you spot the opportunity. Now put your "elevator pitch" together!

CELEBRATING 90 YEARS

DIV 1 ONE DAY EVENT

The website is <https://smm.ncrnmra.org/> and will be updated regularly as plans come together.

We are planning a different kind of event for March and following the KISS (keep it simple stupid) principle. It will be one day so overnight stays are not required for most and costs can be low. We are even doing cash at the door to keep things as simple as possible. Pre-registration is available and recommended but payment will still be expected upon arrival. We hope everyone finds this mini convention fun and informative.

FYI, formal operations could not be included in a single day event but several of the home layouts are taking names for future op sessions to be scheduled. This allows participants to preview layouts and be invited back for a future session. There is a plan to have some limited operations at the venue (like a mini roadshow). More details will be available. See the flyer later in this newsletter!

DIV 6 SYMPATHIES

The Division 6 membership wishes to express our deepest sympathies to the members of Div 8 and the family of member Ed Black, MMR, who passed in mid-December.

The Division 6 membership also wishes to express our deepest sympathies to the members of Div 3 and the family of member John Reitz, MMR, who passed in late December. John is credited with the revitalization of Division 3 several years ago.
